

The New Floor & Decking Surface Solution

WATERPROOF SLIP-RESISTANT SURFACES FOR POOLS, DECKS, SPLASH PADS, AND MORE

SOLID COLLECTION

Natatec® SOLID collection creates a durable, watertight, and slip-resistant surface in indoor and outdoor areas where water or wet environments exist.

For a modern look that will complement any environment, it is available in three neutral colors: Light Grey, Grey, and Sand.

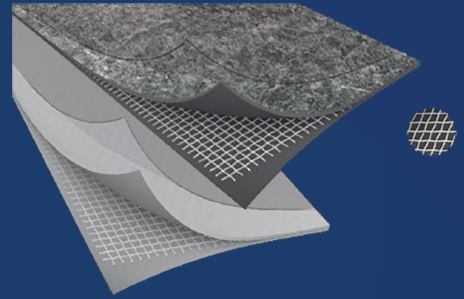

WATERPROOF AND SAFE SURFACES AROUND ANY DECK

Natatec® **SOLID** is a reinforced PVC membrane that encapsulates and makes the deck area slip-resistant and waterproof. This is an ideal solution for decks experiencing cracking, flaking, delamination, and peeling.

APPLICATIONS: Pool, Spa & Hot Tub Decks – Locker Rooms – Splash Pads – Shower Areas – Gyms – Sundecks – Balconies – Roof Decks – Patios – Boathouses

HOW DOES IT WORK?

It is professionally installed on-site to ensure a perfect, smooth fit to the floor or deck shape. It can be applied over most materials, protecting the structure and anything below.

WHAT MAKE SOLID DIFFERENT?

It is a commercial grade, 80-mil thick reinforced PVC membrane that is butt-welded to provide superior slip resistance and elegant designs.

HOW TO BECOME AN INSTALLER?

Join one of our training classes and attend our certification program. We closely support all our installers to ensure proper training is always guaranteed.

 SLIP RESISTANT RATING C3	 QUICK INSTALLATION	 BFLS1 FIRE RATING	 EASY CLEANING & MAINTENANCE
 WATERTIGHT SYSTEM	 UV RESISTANT	 STAIN RESISTANT	 BAREFOOT FRIENDLY

A SOLID PARTNERSHIP YOU CAN TRUST

RENOLIT is a leading global company in the production of high-performance PVC membranes. Natare is one of the most trusted and respected providers of high-durability equipment and systems for aquatic environments. Together, we deliver unique and cost-effective solutions for pools and decks.
