

"THE IDEA THAT ALL POOLS ARE CREATED EQUAL  
JUST DOESN'T HOLD WATER."

# NATATEC<sup>®</sup> SOLID FLOOR & DECK SURFACING

Creates a durable, watertight, and slip-resistant surface  
in areas where water or wet environments exist.

# NATATEC® SOLID FLOOR & DECK SURFACING

## WHAT IS NATATEC SOLID?

Specifically designed for wet environments, Natatec SOLID is an 80mil reinforced PVC membrane that is suitable for interior and exterior applications. This waterproof, textured, and slip-resistant surface resists staining, deterioration, delamination, cracking, and ultraviolet light and is soft enough to provide superior comfort for bare feet.

**NATATEC SOLID COMES WITH A 10-YEAR WATERPROOFING GUARANTEE.**

## HOW DOES IT WORK?

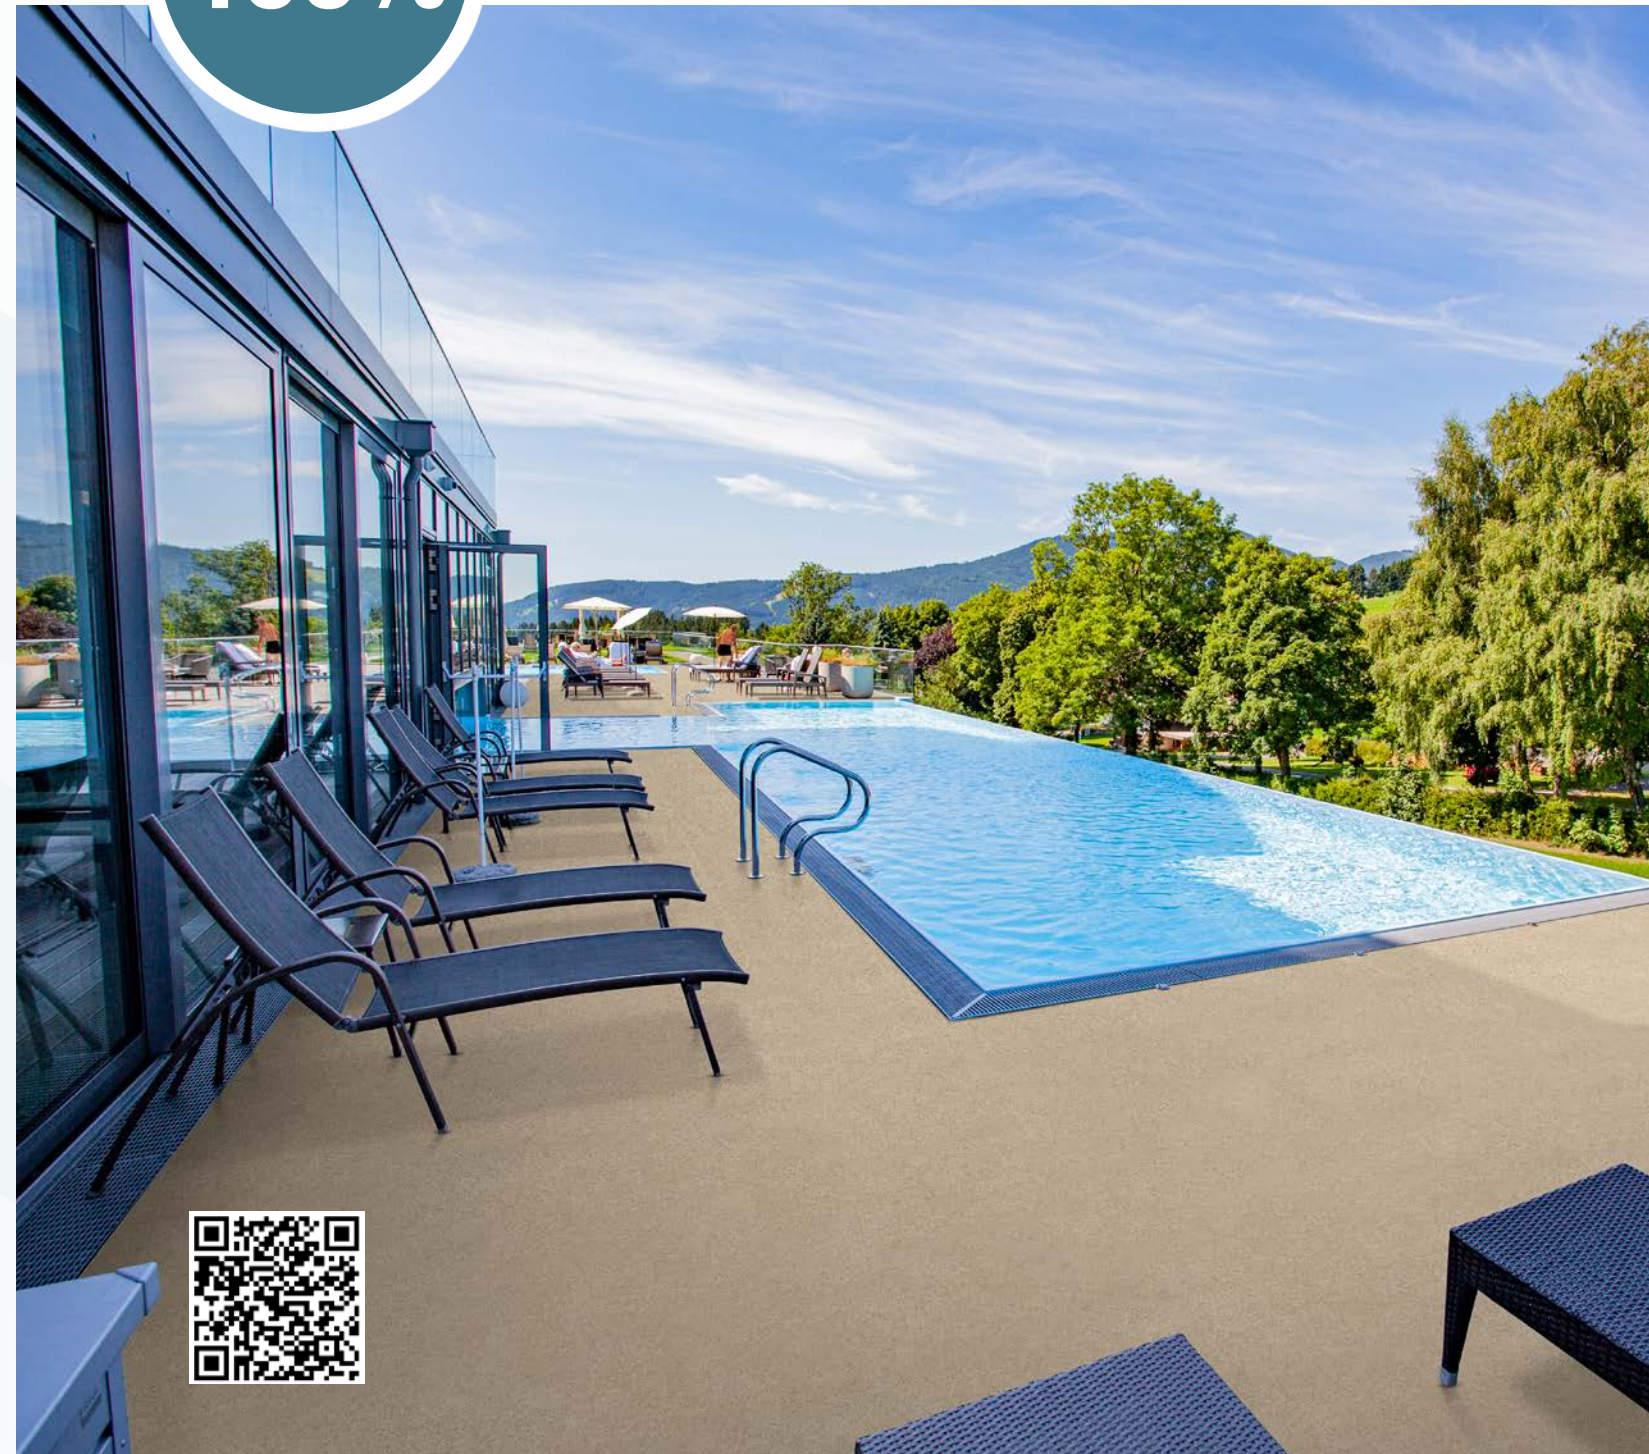

It is professionally installed on-site to ensure a perfect, smooth fit to the floor or deck shape. It can be applied over most materials, protecting the structure and anything below.

## A SOLID PARTNERSHIP YOU CAN TRUST

RENOLIT is a leading global company in the production of high-performance PVC membranes. Natare is one of the most trusted and respected providers of high-durability equipment and systems for aquatic environments. Together, we deliver unique and cost-effective solutions for pools and decks.

**COMMITTED TO YOUR SATISFACTION**

# WHY CHOOSE NATATEC SOLID?

Ideal for renovation and new construction, Natatec SOLID easily installs over most floor and deck surfaces including wood, tile, and concrete.

Manufactured from a special PVC/polyester composite, it is a resilient, dependable, low-maintenance surface. It has a protective acrylic lacquer coating that makes it extremely resistant to chlorine and stains. This smooth surface prevents the accumulation of dirt and grime, minimizing the need for frequent cleaning and maintenance.

Combine Natatec SOLID with our PVC membrane pool lining system to create a completely waterproof and watertight solution for your entire aquatic facility.

Natatec® SOLID is a reinforced PVC membrane that encapsulates and makes the deck area slip-resistant and waterproof. This is an ideal solution for decks experiencing cracking, flaking, delamination, and peeling.

# CERTIFIED SLIP-RESISTANT

The textured surface of Natatec SOLID has been tested according to the following standards on its slip-resistant characteristics:

- UNE-ENV 41901:2017
- DIN 51130:2014
- DIN 51097:1992
- CEN/TS 16165
- ANSI A137.1-2012
- EN 13893
- CE Marking EN 14041:2018

Developed specifically for wet environments, such as pool and spa decks, locker rooms, and shower areas, its textured slip-resistant surface provides superior comfort for a patron's bare feet.

## THREE COLOR OPTIONS

SOLID is offered in three neutral colors for a modern look that will complement any environment:

Light Grey

Grey

Sand
