

"THE IDEA THAT ALL POOLS ARE CREATED EQUAL  
JUST DOESN'T HOLD WATER."

# SMALL / PERSONAL / SPECIALTY POOLS

Our pool and spa systems are pre-engineered,  
easy to install, and durable enough for heavy  
long-term use.

**NATARE FACT:** Our average pool project uses over 7,000 pounds of stainless steel.

When space constraints or design criteria require that a pool goes on-ground, above ground or on a roof, a Natare stainless steel pool is the answer.

When planning a special pool that requires extra creativity, flexibility, or structural know-how, Natare offers complete design solutions for today's innovative facilities. Our stainless steel specialty pool systems can be designed and fabricated for a variety of settings including locker rooms, fitness centers, water parks, and more.

Natare designs and manufactures all types of small specialty stainless steel pools, which include all of the features and benefits of our larger pools. You may choose from pre-engineered units, which easily drop into the designated area, or select a custom-fabricated, site-built pool.

Natare has specialty pool designs, configurations and options that can be tailored to your needs. Sun

shelves, hydrotherapy, terraced depths, temperature modulation, underwater exercise equipment, submerged walking tracks, underwater viewing/video windows, access equipment, counter-swim systems as well as parallel bars, exercise bars and walk-in step areas, can be incorporated into your specialty pool.

# SMALL SPECIALTY POOLS

When planning a specialty pool that requires extra creativity, flexibility or structural know-how, Natare offers complete design solutions for today's innovative facilities.

Choosing the right swimming pool is a highly personal choice. With shrinking yard sizes and evolving consumer preferences, many are now leaning towards smaller pools that require less upkeep and offer a tranquil spot for relaxation or a quick cooling dip.

Natare's specialty pools and spas can be provided with cost-effective and easily maintained mechanical systems. Select the recirculation, disinfection, filtration and heating system that is right for your budget, either as a totally automatic system or with simple manual operation. Whether it's our unique MicroFlo® filtration systems or quality systems from other top manufacturers, your new spa or pool can be tailored to your unique requirements.

# SPECIALTY POOL OPTIONS

**NATARE FACT:**  
Since 1969 we have completed over 7,500 projects around the world.

Natare pools are complete pre-engineered solutions for the construction of virtually any swimming pool, water feature, or aquatic environment. A proven system, Natare pools incorporate stainless steel construction in combination with a wide choice of options.

## COUNTER-SWIM

Resistance swimming is a form of swimming exercise used primarily for athletic or therapeutic purposes. Natare offers counter-swim pools that are built with a self-contained resistance apparatus, enabling the swimmer to swim in place.

## PLUNGE POOLS

We also design and manufacture a variety of special use pools and tanks including plunge pools, underwater weighing, individual hydrotherapy tanks, and rehabilitation systems. These are popular for their therapeutic and health benefits and are perfect for use after a workout, competition, or injury.

## SMALL PERSONAL POOLS

No project is too small. If you have limited space, you do not need to be left out of enjoying the joys and benefits of owning one of our stainless steel swimming pools.

## LAZY RIVERS

Natare stainless steel pools are flexible enough to bend and wind with the curves of lazy rivers. They can be designed and fabricated to any shape, size, or length, including a lazy river in the shape of Texas.

## PERSONAL LAP POOLS

Our personal lap pools for those individuals interested in their own space for aquatic exercise. These can be designed in one, two, or three lap lanes and any length that meets your needs.

Natare equipment, systems and services are available from a worldwide network of distributors, representatives and experienced specialty contractors. Whether it is new construction, renovation or operation, talk to Natare.
